

# Installing Color Fidelity Camera Profiles

Color Fidelity camera profiles have been designed for use with Adobe Camera Raw (ACR) and the Adobe Lightroom.

## Lightroom Classic Installation

- Select the **Develop** tab.
- From the menu bar, choose File > **Import Develop Profiles & Presets**.
- In the Import dialog that appears, browse to the required path and select the DCP profiles or a zip file that contains the profiles you want to import.
- Click **Import**.

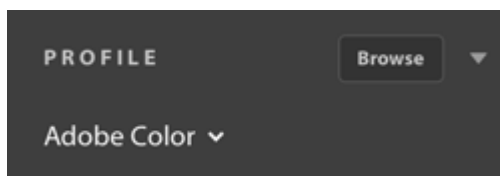

The imported profiles can then be accessed in the **Profile Browser Panel**.

## Lightroom CC Installation

- From the menu bar, choose File > **Import Profiles & Presets**.
- In the Import dialog that appears, browse to the required path and select the DCP profiles or a zip file that contains the profiles you want to import.
- Click **Import**.

The imported profiles can then be accessed in the **Profile Panel**.

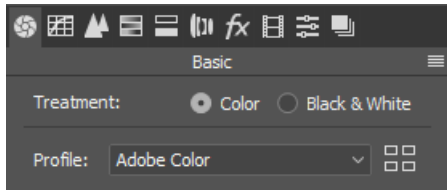

## Photoshop CC (ACR) Installation

- In the **Basic** panel of the Camera Raw dialog box, click the **Profile** drop-down list.
- Select **Browse**.
- In the **Profile Browser** panel, right-click (*Windows*)/Command-click (*Mac*) anywhere on the profile groups area and select **Import Profiles and Presets** from the context menu.

Alternatively, you can right-click (*Windows*)/Command-click (*Mac*) in the **Preset** panel and select **Import Profiles and Presets**.

- In the **Import Profiles and Presets** dialog box, browse your computer and select the zip file you were sent, click **Open** to import it.

The imported profiles can then be accessed in the **Profile Browser Panel**.

Note:

The Import Profiles and Presets dialog box allows you to import zip files only. To import individual profiles, you can manually install them at the right location. See Manual Profile Installation below.

## Manual Profile Installation

Extract the profiles (.dcp) from the .zip file and copy them to the applicable directory:

### Mac OS X:

/Library/Application Support/Adobe/CameraRaw/CameraProfiles

or

Macintosh HD/Users/Username/Library/Application Support/Adobe/CameraRaw/CameraProfiles

By default these may be hidden folders, you can access it from finder menu 'GO' holding down ALT (OPTION) key.

### Windows:

C:\ProgramData\Adobe\CameraRaw\CameraProfiles

or

C:\Users\[Your Username] \AppData\Roaming\Adobe\CameraRaw\CameraProfiles

If you can't find these folders go to: Control Panel > Folder Options > View Tab > Select "Show hidden folders"

## Contact

For news and notification of product updates please visit my site, I also welcome feedback on my profiles, and can be contacted at the email address below.
